

Project 1 – Farming (Agriculture) – Due November 4

Landmark is a farming (agricultural) community. Many people in and around Landmark work as farmers or support farmers with growing crops and/or animals. Even if your family is not involved with farming you are part of what is happening because we all eat what farmers produce. In this project you will learn about farming in the Landmark area and how you are connected to it.

List 5 crops that are grow in the Landmark area. For each of the 5 crops, list 2 ways that the crop is used. Finally, find one way you are connected to the crop (list one thing you use/eat that needs that crop).

If you would like, you can talk to a farmer to find out information about crops and farming in the Landmark area.
